EDUCATION

Degree	Institution	Year	Percentage/CGPA
B.Tech - CST	Maharaja Agrasen Institute of Technology, Delhi	2024 - 2027	CGPA: 8.14
Diploma Engg	Jamia Millia Islamia, New Delhi	2021 - 2024	Percentage:77.025%

SUMMARY

Full-Stack Developer with hands-on experience in React, Next.js, Node.js, TypeScript, PostgreSQL, and AI-powered applications. Built an end-to-end Perplexity AI Clone featuring real-time streaming, authentication, and scalable backend architecture. Passionate about backend systems, AI integration, and solving real-world engineering problems.

TECHNICAL SKILL'S

LANGUAGES : C++, Javascript, Typescript, Java,Python

FRONTEND : ReactJS, NextJS, Tailwind CSS, HTML, CSS, JavaScript

BACKEND : NodeJS, Express JS, NextJS, REST API, JWT Authentication

DATABASE & ORM: PostgreSQL, Mongo, Supabase, Prisma ORM

TOOLS: Git, GitHub, VSCode

WORK EXPERIENCE

Zidio Development:

Apr 2025 - Jul 2025

- Assisted in the development and implementation of web-based solutions.
- Collaborated with team members on the design, coding, and testing of new features.
- Conducted research and analysis to support ongoing projects.
- Adhered to confidentiality protocols for client and company data.

PROJECTS

[Perplexity AI Clone — AI-Powered Search Engine](#)

Built a full-stack AI-powered search engine inspired by Perplexity AI that delivers real-time, cited answers by combining web search with LLM reasoning. The app streams AI-generated responses with inline source citations, conversation history management, and user authentication.

- Real-time streaming responses using Server-Sent Events with multi-level LLM fallback (Gemini → Vercel AI Gateway → Web Synthesis)
- Persistent conversation history with full CRUD operations backed by PostgreSQL via Prisma ORM
- Secure authentication using Supabase (Google/GitHub OAuth) with JWT-based API middleware

CERTIFICATIONS

Oracle Cloud Infrastructure (OCI) 2025 Certified Generative AI Professional — [Oracle](#)

- Gained in-depth understanding of Generative AI model lifecycle, deployment on OCI, and Oracle AI services in real-world architectures
- Hands-on knowledge of prompt engineering, embeddings, vector search, and building secure, scalable AI solutions

AI Tools Skill Up — GeeksforGeeks

- Developed understanding of prompt engineering and AI content generation
- Worked with AI tools to generate structured outputs and improve responses
